

INTERNATIONAL TEAM INVITATION POLICY

Reviewed by the Board: 19 May 2025

Scheduled review date: May 2027

INTRODUCTION

Consideration may be given to inviting international teams to participate in School Sport Australia Championships. This occurs when a sport considers that the championship event would be enhanced by an international team's participation and their inclusion. However it must not compromise existing competition formats or limit State / territory member body participation.

PURPOSE

The purpose of this policy is to provide guidance for when an international team is to be invited to a Championship.

POLICY

Any recommendation to invite an international team to participate can be made at any time as deemed appropriate at the time by the championship event organizers (i.e Event host State/ Territory, SSA Executive, SSA Sport Advisor). When International team inclusion occurs member bodies need to be notified as soon as possible.

International teams accepted to participate at any School Sport Australia Championship will participate as per the rules and guidelines governing the Championship. The international team is not entitled to vote at Championship meetings.

Levy to be applied as determined by the finance committee.
